INFORMATION TO CONTRIBUTORS

The Proceedings is the official organ of the National Academy of Sciences and of the National Research Council for the publication of brief accounts of important current researches of members of the Academy and of the Council and of other American investigators. The Proceedings will aim especially to secure prompt publication of original announcements of discoveries and wide circulation of the results of American Research among investigators in other countries and in all branches of science.

Articles should be brief. The viewpoint should be comprehensive in giving the relation of the paper to previous publications of the author or of others and in exhibiting, where practicable, the significance of the work for other branches of science. Elaborate technical details of the work and long tables of data should be avoided, but authors should be precise in making clear the new results and should give some record of the methods and data upon which they are based.

Manuscripts should be prepared with a current number of the Proceedings as a model in matters of form, and should be typewritten in duplicate with double spacing, the author retaining one copy. Illustrations should be confined to text figures of simple character, though more elaborate illustration may be allowed in special instances to authors willing to pay for their preparation and insertion. -Particular attention should be given to arranging tabular matter in a simple and concise manner.

References to literature, numbered consecutively, will be placed at the end of the article and short footnotes should be avoided. It is suggested that references to periodicals be furnished in some detail and in general in accordance with the standard adopted for the Subject Catalogue of the International Catalog of Scientific Literature, viz., name of author, with initials following (ordinarily omitting title of paper), abbreviated name of Journal, with place of publication, series (if any), volume, inclusive pages, year. For example: Montgomery, T. H., J. Morph., Boston, 22, 731–815 (1911); or, Wheeler, W. M., Konigsberg, Schr. physik. Ges., 25, 1–142 (1914).

Manuscripts will be accepted only from members of the Academy or from chairmen of the divisions of the National Research Council who will assume responsibility for the propriety and scientific standards of the paper and should be addressed to Proceedings of the National Academy of Sciences, 2101 Constitution Ave., Washington, 25, D. C. Articles of which a member of the Academy is author or a co-author may extend to twelve printed pages, those by non-members only to six printed pages; space above these limits will be billed to the author at $17.50 per page.

Proof will ordinarily be sent,—with the understanding that charges for an author's correction shall be billed to him. Authors are therefore requested to make final revisions on the typewritten manuscripts.

Reprints should be ordered at the time of submission of manuscript. They will be furnished to authors at cost, approximately as follows:
