In another case, familiar to all those who have worked so happily under his easy-going and friendly direction, a virus, which has since become of great experimental value, was discovered, and its nature first investigated, under Douglas's immediate and detailed supervision, though his name was not at the head of the papers when the time came for publication.

Douglas's uncertain health, leaving him but seldom free from some measure of pain and disability, would, I think, have prevented him in any case from working assiduously and intensively at the laboratory bench. He lacked, moreover, something of the preliminary training in the more fundamental sciences which modern medical research increasingly demands. His modesty tended to exaggerate his own sense of such gaps in his equipment, and his love of co-operation and genial interchange of ideas weakened a never strong liking for concentrated individual effort. He tended, therefore, as the years went by, to work more and more through his associates and less with his own hands. It is very probable, however, that he thus did a greater service to science than he would ever have rendered by intense personal activity in research. He was able to cultivate a wide knowledge of the problems engaging his colleagues, and of those elsewhere working in the same field; he was constantly fruitful of ingenious suggestion and of shrewd, though always friendly, criticism; and he had a real genius for encouragement and for quietly lubricating the machinery of co-operation.

As time passed, and some of the original departments of the Institute were transferred or merged with the death or retirement of their first leaders, its organization was simplified, and Douglas added the responsibilities of deputy director of the Institute to the leadership of his own department. Here also his loyal friendship and self-effacing helpfulness were beyond praise or acknowledgement. He was always ready to take a tired and thankless responsibility for some aspect of the equipment, the facilities, or the amenities of the Institute as a whole, or to give time for discussion or advice on any matter affecting the general interest; but he seemed to avoid by instinct anything which would enlarge the scope of his own authority, or which would give him any personal prominence. His chosen role among all of us, his colleagues, was that of a genial comrade and a wise elder brother, to which he was well fitted by temperament.

Douglas had a liking for country life and sports, and a healthy relish for the pleasures of normal men. He was a field naturalist and a keen fisherman, loved a day's shooting, enjoyed a good dinner, and knew good wines. In 1920 he married Frances Miriam Clare, née Dayrell, widow of J. B. Nias, M.D. For some years he had rented a cottage in the Shetland Isles, and later acquired a small property there. There he and Mrs. Douglas spent happy fishing holidays, and showed a perfect hospitality to friends who shared their enjoyment. He was a delightful companion, full of good stories and entertaining memories from a full and varied life. One felt that his approach to science was that of the cultivated amateur of a former generation, rather than that of the newer type of professionally trained research worker. Perhaps for that reason, he brought into the laboratory an air of fresh and unpedantic interest, of balanced judgement, and of shrewd common sense. He was, indeed, the most human and most lovable of colleagues and friends. His fellow workers at the National Institute, and in a wide circle beyond it, will sadly miss his sane and genial presence.

H. H. D.

Douglas was elected F.R.S. in 1922 and F.R.C.P. in 1933. A number of publications on bacteriological technique, on vaccines, on cultivation and properties of the tubercle bacillus, etc., stand in his own name; but his major contribution to science is to be found in work published by others. He joined the British Medical Association in 1909, and served as vice-president of the Section of Haematology and Vaccine Therapy at the Annual Meeting that year at Belfast. Many years later, at the Centenary Meeting in London, he was vice-president of the Section of Bacteriology. He was a member of the Vaccination and Immunization Subcommittee in 1933-5, and of the special committee which drew up the report on immunization, including vaccination, published in our Supplement on June 22nd, 1935.

The Services

HONORARY PHYSICIAN TO THE KING

Colonel W. H. Hamilton, C.I.E., C.B.E., D.S.O., I.M.S., has been appointed Honorary Physician to the King, vice Colonel E. C. Hodgson, D.S.O., I.M.S. (ret.).

Universities and Colleges

UNIVERSITY OF OXFORD

Radcliffe Travelling Fellowship

An examination for a Radcliffe Travelling Fellowship of the annual value of £300, and tenable for two years, will be held at the University Museum, commencing on February 18th, at 10 a.m.

Candidates must have passed all the examinations required by the University for the B.A. and B.M. degrees. They must not have completed four years from the date of passing the last examination required for the B.M. The successful candidate must before election declare that he intends to devote himself during his tenure of the Fellowship to the study of medical science, and to travel abroad with a view to that study. The Fellowship will be vacated ipso facto by a Fellow who spends more than twelve months in the whole of the United Kingdom from the date of passing the last examinations required for the Fellowship. The examination will occupy four days. Papers will be set in physiology, pathology, and preventive medicine, and a subject will be proposed which may also be a practical subject, such as clinical medicine or pathology. Any candidate desiring to offer in addition a special branch of either medicine or surgery must send notice of this to the Regius Professor of Medicine by February 15th. Intending candidates should send their names, addresses, qualifications, etc., to the Regius Professor of Medicine, University Museum, by February 15th.

Hunt Travelling Scholarship

The George Herbert Hunt Travelling Scholarship is awarded without examination every second year to a graduate in medicine of either sex who has not exceeded five years from the date of passing the final examination for the B.M. degree.

The scholarship is of the value of £100, or such smaller sum as might be one of the income of the Fund provides. Candidates are required to submit with their applications a statement of their academic record together with testimonials (five copies) and an undertaking that if elected they will travel abroad for a period of not less than three months for the purpose of clinical study or research in medicine. In making the award a preference is given to such candidates as express the intention of engaging in the practice of their profession either as surgeons or general practitioners. The scholar must complete his period of travel within twelve months from election, and within a reasonable period thereafter submit to the dean of the Medical School a detailed report of his tenure of the scholarship. The next election will be made on April 9th. Applications must reach the dean of the Medical School, University Museum, Oxford, by February 24th.

At a congregation held on January 23rd the following medical degrees were conferred:

UNIVERSITY OF CAMBRIDGE

On the nomination of the Faculty Board of Medicine the General Board has appointed Dr. T. Shirley Hele, Master of Emmanuel College, to be Assestor to the Regius Professor of Medicine until December 31st, 1936.

At a congregation held on January 25th the following medical degrees were conferred:

M.D.—B. C. Thompson, C. H. Wrigley, D. N. R. Jones.
M.B.—W. Warren.
Medical Notes in Parliament

In both Houses of Parliament on January 23rd Orders under the Pharmacy and Poisons Act, 1933, were laid for confirmation. These were: (1) Poisons List Confirmation Order, dated December 21st, 1938, made by the Home Secretary under Section 17 (4) of the Act, and confirming the already published list of the substances to be treated as poisons for the purposes of the Act. (2) Poisons (Approved Institutions) Order, of the same date, approving certain hospitals and other institutions for the purpose of Section 20 (4) of the Pharmacy and Poisons Act. (3) Poisons Rules, 1935, dated December 21st, and made by the Home Secretary under Section 23 of the Act. These Orders are open to debate if objection to them is entered and a "prayer" moved within the allotted time.

Both Houses will resume their sittings on February 4th, and the committee stage of the Voluntary Hospitals Bill is set down for the first business of the House of Lords on that day.

Medical News

Dr. G. Scott Williamson will speak on "The Pioneer Health Centre" before the University College Hospital Medical Society, Gower Street, W.C., on Thursday, February 13th, at 5 p.m.

Sir Weldon Dalrymple-Champneys will read a paper (illustrated by cinematograph film) on "The Sterilization of Surgical Catgut" before the Section of Surgery of the Royal Society of Medicine, on Wednesday, February 5th, at 8.30 p.m. A discussion will follow.

A course of four lectures on "The Psychological Clinic and Community Welfare" will be given at the Liverpool Psychiatric Clinic, 56, Bedford Street North, Liverpool, on Wednesdays at 12 noon; and demonstrations on the physiology of the nervous system, on Tuesdays at 12 noon. The fee for the course is £10 10s., (single lectures, 3s. 6d.), and written application for tickets should be addressed to the lecture secretary at the clinic.

A new post-graduate course opened at the National Hospital, Queen Square, W.C.1, on January 27th, and will be continued till Friday, March 27th. The course includes: out-patient clinics and lectures and clinical demonstrations on each week-day, except Saturday, at 2 p.m. and 3.30 p.m. respectively; demonstrations on the physiology of the nervous system, on Wednesdays and Thursdays at 12 noon; and demonstrations on the physiology of the nervous system, on Tuesdays at 12 noon. The fee for the course is £10 10s., and for clinical clerks or those who hold perpetual tickets £8 8s. Special arrangements will be made for those who cannot take the whole course.

At Monaco from February 10th to 12th there will be held the first meeting of a new society which has been formed with the object of revising the rules of warfare. Politicians, judges, and several distinguished members of the French Medical Corps will attend. There will be discussions directed notably to reviewing the laws pertaining to the protection of the civil community in times of war, and to a diplomatic convention on the protection of medical personnel, in the event of war. The International Federation of Medical Societies will hold a session at the same time and direct its studies to the same end.

The Fellowship of Medicine announces that surgical tutorial classes will be given at the National Temperance Hospital, at 8.30 p.m.: on February 4th, intestinal obstruction; February 6th, thorax; February 11th, injuries to joints, muscles, and tendons; February 13th, kidney and bladder. For candidates for the Primary F.R.C.S. examination a course of lecture-demonstrations in anatomy and physiology will be held at the Infants Hospital on Mondays, Wednesdays, and Fridays, at 8 p.m., from February 24th to April 24th. Advanced courses include gynaecology, at Chelsea Hospital for Women, February 10th to 22nd; M.R.C.P. evening clinical course, at National Temperance Hospital, Tuesdays and Thursdays, at 8 p.m., February 25th to March 12th; orthopaedics, at Royal National Orthopaedic Hospital, March 9th to 21st. Courses particularly suitable for general practitioners include the following: physical medicine, at St. John Clinic and Institute of Physical Medicine, February 4th and 5th; children's orthopaedics, at Princess Elizabeth of York Hospital, February 22nd and 23rd; chest diseases, at Brompton Hospital, March 7th and 8th; clinical surgery, at Royal Albert Dock Hospital, March 14th and 15th. Courses are open only to members and associates, and full particulars and detailed syllabuses may be obtained from the Fellowship of Medicine, 1, Wimpole Street, W.

On account of the lamented death of His Majesty King George V the President and Council of the Royal College of Surgeons of England have decided not to hold the Hunterian Festival dinner on Friday, February 14th. The Hunterian Oration will be delivered by Mr. C. H. Fage at 4 p.m. on that day as arranged.

The course before the Royal Institution by Professor Edward Mellanby, on "Recent Advances in the Treatment of Disease," arranged for to-day (Friday, January 31st) at 9 p.m., has been postponed.

Owing to the death of His Majesty King George V the annual dinner of the Royal Society of Medicine, which was to have been held on February 19th, has been postponed.

The St. George's Hospital Medical School Ball, which was to have been held at Grosvenor House, Park Lane, on February 19th, has been cancelled owing to the national mourning.

Dr. D. C. Norris (Inner Temple) and Dr. F. Collar (Middle Temple) were called to the Bar on January 27th.

The inauguration of the Académie de Chirurgie will take place at the Paris Faculty of Medicine on February 4th in the presence of the President of the Republic and the Minister of the Ministry of Education. Dr. Louis Bazy will relate the history of the Académie Royale de Chirurgie and the Société Nationale de Chirurgie.

Letters, Notes, and Answers

All communications in regard to editorial business should be addressed to the EDITOR, British Medical Journal, B.M.A. House, Tavistock Square, W.C.1.

ORIGINAL ARTICLES and LETTERS forwarded for publication are understood to be offered to the British Medical Journal alone, unless to the contrary is stated. Correspondents who wish notice to be taken of their communications should authenticate them with their names, not in the case of publication.

Authors desiring REPRINTS of their articles published in the British Medical Journal must communicate with the Financial Secretary and Business Manager, British Medical Association House, Tavistock Square, W.C.1. On receipt of proofs. Authors desiring permission to write to MSS. if reprints are required, as papers are not sent abroad.

All communications with reference to ADVERTISEMENTS, as well as orders for copies of the Journal, should be addressed to the Financial Secretary and Business Manager.

The TELEPHONE NUMBER of the British Medical Association and the British Medical Journal is LUSTON 2111 (internal exchange, five lines).

The TELEGRAPHIC ADDRESSES are

FINANCIAL SECRETARY AND BUSINESS MANAGER (Advertisements, etc.), Articulate Westend, London.

MEDICAL SECRETARY, Mediseca Westend, London.

The address of the B.M.A. Scottish Office is 7, Drumsheugh Gardens, Edinburgh (telegrams: Associate, Edinburgh; telephone: 24861 Edinburgh), and of the Office of the Irish Free State Medical Union (I.M.A. and B.M.A.), 18, Kildare Street, Dublin (telegrams: Baculius, Dublin; telephone: 62590 Dublin).

QUERIES AND ANSWERS

Treatment of Seborrhoea

"A. B." writes: I have a case of seborrhoea of the scalp and face in a woman aged 35 years. It started in the scalp and spread to the upper half of the face. It is now appearing on the vulva, accompanied by severe pruritus. I would be glad if any of your readers could suggest a remedy.
Naval, Military, and Air Force Appointments

ROYAL NAVAL MEDICAL SERVICE
Surgeon Commanders G. W. Woodhouse to Royal Naval Hospital, Portland; R. W. Higgins to the President, for course; W. G. C. Fitzpatrick to the Temporary for Royal Naval Barracks, February 18th, and to the Vernon, February 24th.
Surgeon Lieutenant Commander W. A. Hopkins to be Surgeon Commander. 
Surgeon Lieutenant Commander T. F. Creen to the Pembroke, for Royal Naval Barracks, Chatham.
Surgeon Lieutenants D. W. Walker to the Pembroke, for Royal Marine Infirmary, Deal; T. McCarthy to the Faroiius.

ROYAL NAVAL VOLUNTEER RESERVE
Probationary Surgeon Lieutenant H. J. Wade to the Excellent, H. B. Howard has entered as Probationary Surgeon Lieutenant. Probationary Surgeon Lieutenant D. S. Macphail to be Surgeon Sublieutenants with seniorities December 3rd, 1934, and January 2nd, 1935, respectively.

ROYAL ARMY MEDICAL CORPS

ROYAL AIR FORCE MEDICAL SERVICE
Flying Officers A. W. Smith and J. W. Patrick (January 7th, 1935), J. S. Wilson (January 16th, 1934), C. A. Lewis (March 7th, 1935), R. G. James (October 7th, 1935), and G. H. Stuart (October 29th, 1935) to be Flight Lieutenants with the seniorities indicated in parentheses.
Flying Officer R. S. Pull to R.A.F Station, North Coates Fitties.

ROYAL AIR FORCE RESERVE: MEDICAL BRANCH
Flying Officer T. P. Malahay has relinquished his commission on appointment to a commission in the Indian Medical Service.

REGULAR ARMY RESERVE OF OFFICERS
ROYAL ARMY MEDICAL CORPS
Captain W. G. Burns has resigned his commission and retains the rank of Captain.

TERRITORIAL ARMY
ROYAL ARMY MEDICAL CORPS
Captain G. W. Wright, M.M., T.D. to be Major.
To be Lieutenants: H. Weir, late Cadet Sergeant, Glasgow University Contingent, Senior Division, O.T.C.; J. L. Gowen, late Cadet, George Watson’s College Contingent, Junior Division, O.T.C.

Association Notices

SCHOLARSHIPS AND GRANTS IN AID OF SCIENTIFIC RESEARCH

Scholarships
The Council of the British Medical Association is prepared to receive applications for Research Scholarships as follows: an Ernest Hart Memorial Scholarship of the value of £200 per annum (subject to the value of £200 per annum), and three Research Scholarships each of the value of £150 per annum. These Scholarships are given to candidates whose the Science Committee of the Association recommends as qualified to undertake research in any subject (including State medicine) relating to the causation, prevention, or treatment of disease. Preference will be given, other things being equal, to members of the medical profession. Each Scholarship is tenable for one year, commencing on October 1st, 1936. A Scholar may be reappointed for not more than two additional terms. A Scholar is not necessarily required to devote the whole of his time to the work of research, but may hold a junior appointment at a university, medical school, or hospital, provided the duties of such appointment do not interfere with his or her work as a Scholar.

Grants
The Council of the British Medical Association is also prepared to receive applications for Grants for the assistance of research into the causation, treatment, or prevention of disease. Preference will be given, other things being equal, to members of the medical profession and to applicants who propose as subjects of investigation problems directly related to practical medicine.

Conditions of Award: Applications
Applications for Scholarships and Grants must be made not later than May 9th, 1936, on the prescribed form, a copy of which will be supplied on application to the Medical Secretary of the Association, B.M.A. House, Tavistock Square, London, W.C.1. Applicants are required to furnish the names of three referees who are competent to speak as to their capacity for the research contemplated.

DIARY OF SOCIETIES AND LECTURES

ROYAL COLLEGE OF SURGEONS OF ENGLAND
Lincoln’s Inn Fields, Tues., 5 p.m., Professor A. M. Beattie, M.R.C.S., F.R.C.S., on the Agitation of Peripheral Vascular Disease. Wed., 5 p.m., Professor H. Osmond Clarke, F.R.C.S., on Injuries of the Carpal Bones.
Fri., 5 p.m., Professor F. H. Bentley, F.R.C.S., on Wound Healing in vivo—The Inter-relationship of Epithelial and Fibrous Tissue Growth.

ROYAL SOCIETY OF MEDICINE
Section of Orthopaedics—Tues., 5.30 p.m. (Cases at 4.30 p.m.) Demonstration by Mr. H. R. Lloyd: A Director for the Insertion of the Smith-Petersen Nail in Collum Femoris Fractures.

Section of Pathology—Tues., 8.15 p.m. Laboratory Meeting at Department of Pathology, St. Thomas’s Hospital Medical School.

Section of History of Medicine—Wed., 5 p.m. Paper by Professor Alexander Hadlow: Historical Notes on Cancer from the MSS. of Louis Westermann Sambon.

Section of Surgery—Wed., 8.30 p.m. Paper by Sir Weldon Lubbock—Champneys: The Sterilization of Surgical Catgut. A discussion will follow.

Section of Tropical Diseases and Parasitology—Thurs., 8.15 p.m. Demonstration by Professor R. T. Leiper: The Crustacea as Helminth Intermediaries. Paper by Dr. B. G. Peters: Some Recent Developments in Helminthology.

Section of Otology—Fri., 10.30 a.m. (Cases at 9.30 a.m.) Discussion: Value of Radiology in Diseases of the Ear. Openers, Mr. W. Stirk Adams, Mr. F. R. Cawthorne, and Dr. M. Mitman.

Section of Laryngology—Fri., 5 p.m. Clinical Meeting. Short Communication by Mr. Maxwell Ellis: The Mechanism of Phonation. Movements and the Naso-pulmonary Reflex. Cases will be shown at 4 p.m.

Section of Anaesthetics—Fri., 8.30 p.m. Paper by Dr. I. W. Magill: Anaesthetics in Thoracic Surgery, with Special Reference to Lobectomy.

St. JOHN’S CLINIC AND INSTITUTE OF PHYSICAL MEDICINE, Ranelagh Road, S.W.—Fri., 4.30 p.m., Dr. L. Attikian, Ophthalmic in Relation to Physical Disease.

University College, W.C.—Mon., 5 p.m., Dr. H. R. Ing: Chemical Structure and Pharmacological Action. Tues., 5 p.m., Mr. G. P. Wells: Comparative Physiology. Thurs., 5 p.m., Dr. F. G. Young: Glycogen and the Metabolism of Carbohydrates.

West London Medico-Chirurgical Society.—At De Vere Hotel, Kensigton Road, W., Fri., 7.30 p.m., Dinner; 8.30 p.m., Discussion: Epistaxis. To be opened by Dr. Geoffrey Evans and Mr. C. Hamblen Thomas.

POST-GRADUATE COURSES AND LECTURES

FELLOWSHIP OF MEDICINE AND POST-GRADUATE MEDICAL ASSOCIATION
1, Wimpole Street, W.—St. John’s Hospital, 5, Lisle Street, W.C.: Afternoon Course in Dermatology. St. Mark’s Hospital, City Road, E.C.: All-day Course in Proctology. West End Hospital for Nervous Diseases, Welbeck Street, W.: All-day Course in Nervous Diseases. St. John’s Clinic and Institute of Physical Medicine. Randolph Road, S.W.: All-day Course in Dermatology, Sun, and Sun., Conferences in Physical Medicine. National Temperance Hospital, Hampstead Road, N.W.: Surgical Tutorial Classes—Tues., 8.30 p.m., Mr. A. J. Okkinkis, Intestinal Obstruction; Thurs., 8.30 p.m., Mr. T. Holmes Sellors, Thorax.

CENTRAL LONDON THROAT, NOSE AND EAR HOSPITAL, Gray’s Inn Road, W.C.—Fri., 4 p.m., Mr. W. A. Mill, Earache in the Normal Ear.

HOSPITAL FOR SICK CHILDREN, Great Ormond Street, W.C.—Wed., 2 p.m., Clinical Lecture, Mr. Denis Browne, Empeyrenia; 3 p.m., Clinico-pathological Lecture, Dr. W. W. Payne, Vitamin Deficiency as a Predisposing Factor in Infection. Out-patient Clinics, mornings, 10 a.m. to 12 noon. Ward Visits, afternoons, 2 p.m. to 3.30 p.m.
VACANCIES

All advertisements should be addressed to the Financial Secretary and Business Manager and NOT to the Editor.

BATH: Royal United Hospital.—I.S. (male), unmarrried. Salary £150 p.a.

BRISTOL: City.—Temporary M.O. (female) in the Maternity and Child Welfare Department. Salary £10 per week.

BROMLEY: Queen's Hospital.—(1) Bacteriologist and Clinical Pathologist. (2) Resident Surgical Registrar. Salaries £600 p.a. and £100 p.a., respectively.

BRIGHTON: Sussex County Hospital.—Superintendent, S.W. Two M.O.'s, for a Medical Unit to Asylum. Salaries £600 p.a. each.

SALOP: Shrewsbury General Hospital.—(1) Junior Medical Officer. (2) Second Medical Officer. Salary £100 p.a.

COXHAM: Royal Infirmary.—(1) Assistant Resident Radiologist. (2) Second Medical Registrar. (3) (6) (5) (2) (4) (O) M.R. Salaries £200-£250 p.a. each.

DURHAM: County.—Resident Registrar. Salary £200 p.a.

DEVON: Royal Infirmary.—(1) Assistant Resident. (2) Second Medical Registrar. Salary £150 p.a.

DORCHESTER: County.—Resident Registrar. Salary £200 p.a.

INFANTS HOSPITAL, Vincent Square, S.W.—(1) R.M.O. Salary £350 p.a.

LAVENTON: County.—A.M.O. (male, unmarrried). Salary £250 p.a.

HASTINGS: Royal Infirmary.—(1) A.M.O. Salary £200 p.a.

LIVERPOOL: Hospital for Consumption and Diseases of the Chest.—R.M.O. Salary £350 p.a.

LONDON: County.—(1) A.M.O. (male, Grade 1) at (a) Bethlem Hospital, S.E., (b) St. Allege's Hospital, S.E., (c) St. George-in-the-East Hospital, E., (d) Paddington Hospital, W., (e) St. Peter's Hospital, E., (f) Mile End Hospital, E.R. Salaries £250-£450 p.a. each. (2) H.P. (male) at Dulwich and St. Andrew's Hospitals. Salary £210 p.a.

LONDON: Hospital, E.—Medical First Assistant and Registrar. Salary £350 p.a.

MANCHESTER: Hospital for Sick Children.—R.M.O. Salary £250 p.a.

NEWCASTLE-UPON- Tyne: Hospital for Sick Children.—R.M.O. Salary £250 p.a.

NEWCASTLE: County.—(1) A.M.O. (male, Grade 1) at (a) Bethlem Hospital, S.E., (b) St. Allege's Hospital, S.E., (c) St. George-in-the-East Hospital, E., (d) Paddington Hospital, W., (e) St. Peter's Hospital, E., (f) Mile End Hospital, E.R. Salaries £250-£450 p.a. each. (2) H.P. (male) at Dulwich and St. Andrew's Hospitals. Salary £210 p.a.

LONDON: Hospital, E.—Medical First Assistant and Registrar. Salary £350 p.a.

SHEFFIELD: Royal Hospital.—Whole-time Clinical Assistants to (1) Ophthalmic Department and (2) Ear, Nose, and Throat Department. Salaries £200 p.a. each.

SHERBURY: Salop Mental Hospital.—A.M.O. (male).

WELLINGTON: Royal Hospital.—A.M.O. (male, unmarrried). Salary £250 p.a.

WINDSOR: Rising of Berkshire County Council.—Medical Secretary. Salary £250-£250 p.a.

WINCHESTER: Royal Hampshire County Council.—Assistant Hon. Clinical Pathologist.

WOODBURY: Devon: \*

BIRTHS, MARRIAGES, AND DEATHS

The charge for inserting announcements of Births, Marriages, and Deaths is 9d., which sum should be forwarded with the notice not later than the first post on Tuesday morning, in order to ensure insertion in the current issue.

BIRTHS

GARLAND.—On January 23rd, 1906, at Leeds, to Joyce, wife of Dr. Hugh Garland, a daughter.

WHITTLE.—On January 23rd, 1906, at Brookfield, Cambridge, to Phyllis (nee Fricker), wife of Dr. C. Howard Whittle, a son.

DEATH

WILLIAMS.—Erroll H. Williams, F.D.C., M.B., Ch.B., B.D.S., on January 24th, 1906, at 27, Redcar Square, Southport, the dearly beloved husband of Merle E. Williams, in his 37th year. Interment at St. Cuthbert's Church, Churchtown, on Monday last at 12 noon.
