S6 Fig. Effect of single dose entolimod treatment on IL-8 and IL-10 levels in the peripheral blood of NHPs irradiated with LD$_{50/40}$ or LD$_{75/40}$ doses of TBI.

A, B: Effects of different entolimod doses administered 1 h after TBI (study R9$-$09; N=18). C, D: Effect of different entolimod doses administered 25 h after TBI (study R9$-$14; N=10). Error bars represent standard errors.
