INFORMATION TO CONTRIBUTORS

The Proceedings is the official organ of the National Academy of Sciences and of the National Research Council for the publication of brief accounts of important current researches of members of the Academy and of the Council and of other American investigators. The Proceedings will aim especially to secure prompt publication of original announcements of discoveries and wide circulation of the results of American research among investigators in other countries and in all branches of science.

Articles should be brief. The viewpoint should be comprehensive in giving the relation of the paper to previous publications of the author or of other and in exhibiting, where practicable, the significance of the work for other branches of science. Elaborate technical details of the work and long tables of data should be avoided, but authors should be precise in making clear the new results and should give some record of the methods and data upon which they are based.

Manuscripts should be prepared with a current number of the Proceedings as a model in matters of form, and should be typewritten in duplicate with double spacing, the author retaining one copy. Illustrations should be confined to text figures of simple character, though more elaborate illustration may be allowed in special instances to authors willing to pay for their preparation and insertion. Particular attention should be given to arranging tabular matter in a simple and concise manner.

Manuscripts will be accepted only from members of the Academy who will assume responsibility for the propriety and scientific standards of the paper and for any printing costs in excess of those allowed them by the Academy. Manuscripts should be addressed to The Proceedings of the National Academy of Sciences, 2101 Constitution Ave., Washington 25, D. C.

Galley proof will be sent, with the understanding that charges for author's corrections shall be billed to him. Author should therefore make final revisions on the typewritten manuscripts. Original artwork or figures cannot be returned unless a request is made when the manuscript is submitted. Page proofs will not be sent. Reprints should be ordered when proof is returned on the reprint order form which will be inclosed with the proof. The order blank gives a tabular estimation of the cost of reprints; a copy will be supplied at any time upon request.
